"During my Academic Year, I improved my English up to advanced C2-level classes. But also gained a deeper understanding of the vibrant startup ecosystem in Silicon Valley, visiting tech giants like Google, Meta, Microsoft, Apple, HP, and Stanford University. It was a dream come true. I'm incredibly grateful to everyone who made this journey so special."

- Irine P. | Kaplan Student in Berkeley, California.

"The decision that changed my life. I have always wanted to be bilingual, so I took a gap year in my career to study English in New York for 11 months. I wish I could do it again and again. Kaplan's support, the tailor-made lessons, students from many countries, and specific classrooms for professionals like me, over 30, helped me in ways I never expected."

- Alexandra S. | Kaplan Student in New York.

"I was preparing for the university exam to study for a master's in logistics and knew that my English would be a barrier, so I took a year to improve and exceeded the IELTS score I needed. This, combined with the unforgettable experience of living in the UK, was the best year of my life."

- Tochi | Kaplan student in London.

"My career felt stuck as I couldn't speak any language other than Arabic, so I decided to take a Multi-destination Year in the UK, first Bath for 3 months and then Oxford. I learned the language and culture, and met people from countries I didn't know anything about; I always felt at home."

- Aiman M. | Kaplan student in Bath and Oxford.

"As a psychologist, I often felt limited by my level of English, affecting both my professional development and my ability to travel and connect with others. I chose Kaplan based on friends' recommendations and the kindness they showed me during the selection process. After 8 months in Boston studying at Kaplan, I can joyfully say: "I don't want to leave!" I never imagined that this time would be so entertaining, challenging, and interesting. The classes are dynamic, interactive, personalized, and always conducted in a respectful and friendly environment. I am ready for the next step: studying at Lesley University! "

- Maria J. | Kaplan student in Boston.

"I was already a professional but lacked the language skills to climb the professional ladder. After a year, everything changed from not speaking any English to working 90% of the time in an international company, where I have to speak English 90% of the time. And I made friends for life. Every Christmas, I visit my host family for a year; we have become family. I feel so lucky to have had the opportunity to travel to every continent, and I now have friends to visit."

- Pedro Pablo L. | Kaplan student in Bath.

"If I wanted to secure my first job in finance, I had to improve my English dramatically. My sabbatical of 9 months' experience was beyond what I expected, and yes, I immediately got a job when I returned to Saudi Arabia."

- Ibrahim H. | Kaplan student in Dublin.

Academic Year Abroad in the life of Sol

A Kaplan student

Hiiii, I'm Sol, from Spain :)

Nearly a year ago, I went to study abroad at Kaplan Toronto. I had no idea how much that decision would change everything. Looking back now, it feels like that time abroad opened a new chapter in my life—one filled with growth, unforgettable experiences, and a version of myself I never imagined I'd become.

I began my first month as a B1 level student. **My first day at Kaplan Toronto was unforgettable.** We had an in-person orientation and afterward, we all mingled, went on a walking tour, and ended the day with dinner together. It was the **perfect** start to my time in the city.

September was all about getting to know Toronto. I spent hours walking around the city, soaking in everything this amazing place has to offer. It didn't take long before I met Juliette, from France, who would become my **best friend**. I also connected with a wonderful group of Mexican students, along with others from France, Turkey, and **many other countries**.

October

The first weekend of October, we went to **Niagara Falls**, and that Saturday still holds a special place in my heart. I also went to watch a **Maple Leafs** game with one of my friends, and we got to **celebrate Halloween**.

By this time, I could already tell **my English was getting better**. I spent many hours speaking in English because no matter which group I was with, my friend Juliette was always there, and that forced us to speak in English.

"By this time, I could already tell my English was getting better."

November

Snow made its first appearance, and I was so excited about it! As the weather got colder, we spent a lot of time at one of Kaplan's residences. **I loved it there!**

And then... we went to NYC!!

It was an amazing experience, and we had an absolute blast.

I also took my progress test, and **I passed B2!**

December

"We did so many different activities that always involved talking to other students and having fun."

In my classes with my teacher Brad, we did so many different activities that always involved **talking** to other students **and having fun**.

In December, I moved to the residence, and it was one of the best decisions I made. I shared an apartment with two other students, and we had a gym inside the building. Plus, I was living right downtown, which **was amazing**.

January

My parents, my brother, and my grandma came to visit me for almost two weeks. **It was such a special time**, and I had the chance to show them both Kaplan and the city that I had fallen in love with.

We visited some of the city's top spots, like the CN Tower, Toronto Island, the aquarium, and Algonquin Park. We also spent time by the lake, enjoying the beautiful views and the peaceful atmosphere. These were all places I had come to love during my time here, and it was so special to share those experiences with my family.

"I had the chance to show them both Kaplan and the city that I had fallen in love with."

February

"She made the classes both interesting and valuable."

In February, I decided to move to the IELTS program since I was planning to take the IELTS exam. Ellen was my teacher at that time, and she was (and still is) an outstanding instructor. She made the **classes both interesting and valuable**, providing the **perfect environment** and skills to prepare for the exam.

March

I would say that March was one of the best months of my time in Toronto. For my birthday week, Juliette and I decided to **travel to Oaxaca, Mexico**, to visit the friends we had made at the beginning of our time at Kaplan. It turned out to be **one of the best trips of my life**.

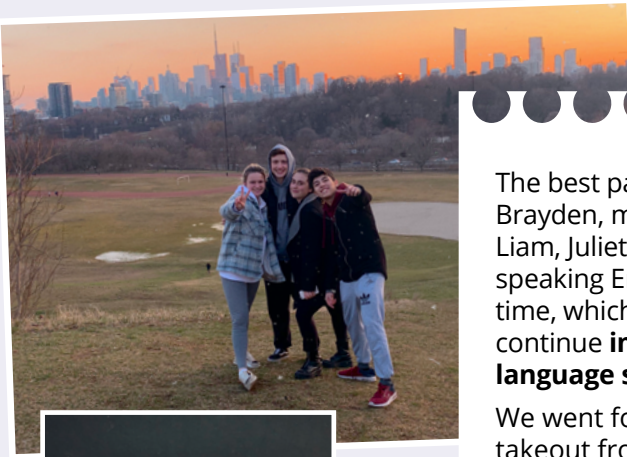

But that wasn't all—during that month, I also met a Canadian man who is now my **boyfriend**. We formed a group of four, and we spent almost all of our time together. We had a couple of weeks to do different **fun activities** like going to a drive-in!

"I also met a Canadian man who is now my boyfriend."

April

The best part was that Brayden, my boyfriend, Liam, Juliette, and I were speaking English all the time, which helped me continue **improving my language skills**.

We went for walks, ordered takeout from restaurants, and engaged in a few other activities (I even learned how to play baseball LOL).

"The best part was that Brayden, my boyfriend, Liam, Juliette, and I were speaking English all the time."

After my #KaplanExperience

After this amazing experience, I returned to Spain, where I started my Bachelor's degree in Tourism and Hospitality, eventually graduating in Digital Tourism Marketing. During the four years of university, I came back to Toronto every summer, and my boyfriend moved to Spain for a year and a half.

Eight months ago, I moved back to Toronto again. Thanks to my time as part of the Student Ambassador Program at Kaplan, I was able to start working at the school. Currently, I'm a Student Services and Activities Coordinator, and I'm lucky enough to say that I've found a second family at my workplace. I absolutely love Kaplan, and on top of that, I found the love of my life.

Helping students succeed for 85+ years

Over 85 years ago, Stanley Kaplan began tutoring his peers in the basement of his parents' home. As a Brooklyn-born son of immigrants and a first-generation college student, Stanley believed in the power and necessity of education for all.

Today, our thousands of employees working in 27 countries/regions continue Stanley's mission as they serve about 1.2 million students and professionals, 15,000 corporate clients, and 3,300 schools, school districts, colleges, and universities worldwide.

At Kaplan International Languages, we teach English, French and German across eight countries and our prestigious Kaplan method has now been adjusted for online programs, offering excellent digital and live support for individuals, professionals, and academics.

We teach students from all sectors around the world, so you can trust our teachers to provide you with all the tools and guidance you need to gain the confidence to speak these languages naturally. We will match your needs and work to exceed your expectations. It's all that Stanley wanted.

"Dream big, work hard, and never give up."

Kaplan beyond profit

Rebuilding through learning — supporting Plan International

For over a decade, Kaplan has been a proud partner of Plan International, a global organisation dedicated to advancing children's rights and gender equality. Our support has spanned impactful education projects in Senegal, Sierra Leone, Zimbabwe, and now Nigeria, where we are sponsoring the PLANE 2 initiative. This program delivers accelerated learning to 60,000 out-of-school children—many displaced by conflict—through temporary classrooms and a tailored curriculum. With a strong focus on foundational skills, life skills for girls, and gender equality, PLANE 2 helps young learners return to formal education and rebuild their futures.

Language as a lifeline — RefuAid Partnership

In the UK, Kaplan International Languages works with RefuAid to provide free online English programs to refugees and asylum seekers. For individuals who have fled war, persecution, or disaster, language is often the first barrier to rebuilding their lives. Our support helps participants gain the language skills they need to access further and higher education, requalify in their professions, and integrate into their new communities.

Access without barriers — Kaplan Educational Foundation

The Kaplan Educational Foundation (KEF) is a powerful expression of our founder's original vision and mission: to remove barriers to education and create opportunities based on merit, not privilege. KEF supports high-achieving, low-income community college student in transferring to top universities. Through scholarships, mentoring, and holistic support, the Foundation helps students overcome systemic challenges and prepares them for leadership roles in their careers and communities. It's an inspiring model of how education can unlock potential and drive long-term change.

Beyond the English language classroom

Through these activities spanning different regions and settings, we support education as a force for equity, empowerment, and transformation. Whether it's helping girls in Nigeria to continue their learning, enabling a qualified doctor displaced by war to unlock a new future in the UK, or support a student in the U.S. to expand beyond their current horizons through higher education, Kaplan's support reflects a deep commitment to building futures—not just for our customers, but for communities around the world.
