

# KEEPING OUR SCHOOLS SAFE

CANADA

\*SEE OUR VANCOUVER COVID-19 SAFETY & READINESS PLAN [HERE](#)

## HOW WE ARE KEEPING STUDENTS SAFE

We understand that students will be excited, but also nervous, about their trip abroad. Below is a brief summary of some of the things we are doing to help make sure they feel safe whilst at school and where they are living.

### IN SCHOOL SAFETY

#### Common areas and classes

- We will have hand sanitizer available for all staff and students throughout the school.
- Room layouts have changes and furniture moved to make it easier to keep a distance.
- Everyone in the school will be required to wear a face covering.
- Upon entering the school, all staff and students will have their temperature checked.
- There will be an intense deep clean schedule to make the school as safe as possible.
- Kaplan follows local government rules for staff or students who show COVID-19 symptoms or who test positive for COVID-19.
- Protective screens have been installed at reception and other key points.

#### Class management and timetables

- Schools will be open Monday to Friday.
- We will continue to offer online social programme activities and will introduce outdoor trips as and when it is safe to do so and providers reopen.
- KITE testing will continue to be online.
- K+ books will be provided as per normal, but students are required to bring their own writing materials and notebooks.

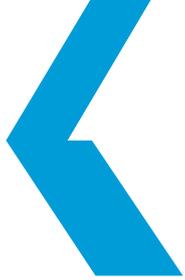

# ACCOMMODATION SAFETY

## Homestay

- Students will be placed in single rooms only, unless two students who live together in their home country are traveling together and request a shared room. No other room sharing is permissible under the current circumstances.
- Likewise, hosts have informed Kaplan of any medical conditions which means they would be considered high risk so we can assess whether or not they host at this time.
- Under recommendation of the Center for Disease Control, students arriving in the United States are advised to self-isolate for 14 days. Hosts have been asked to deliver meals to the students by placing food outside of students' bedrooms for them to retrieve. Students will spend no time with family members at all.
- Lunch supplement for additional fee may be requested during the quarantine period.
- Students will inform Kaplan of any medical conditions so we can inform hosts and find the most suitable accommodation for them.
- We will do our best to provide students with access to a separate bathroom from the other household members. If this is not possible, the frequency of cleaning in the bathroom will increase and students will also be asked to wipe down taps after they have finished using them.
- Our homestay hosts have been briefed on what to do if a student or anyone in their household presents with symptoms and the Accommodation Team will be available to assist in such circumstances.

## Residence

- Primarily and subject to availability, we will be placing students in studio accommodation where they have their own bathrooms and kitchens thus minimising interaction with other students.
- Where studio accommodation is not available, we will begin allocating students in ensuite rooms in separate flats to minimise interaction.
- When availability for separate apartments is limited, we will advise students on a 'kitchen schedule' to help minimize interactions within the flats. Students will be expected to clean after they have finished with the kitchen. Students will have access to their own bathrooms at all times.
- Our residence partners have increased the frequency of cleaning throughout their common areas. Students will be provided cleaning products to clean their own suites.
- Common areas such as gyms and games rooms have been closed until further notice to help minimize areas of people congregating together.
- Please ask the team in the residence with how they can help with food delivery, including supplying a list of local suppliers or sign-up for the residence's meal delivery program where one is provided.

# STUDENT WELL-BEING

## Ongoing support

The Student Support and Accommodation Teams remain available to assist you with any queries during this time. We will also do all we can to help support students during this challenging time.
